Open Access Policy  
This journal provides open access to all of its content on the principle that making research freely available to the public supports a greater global exchange of knowledge. Such access is associated with increased readership and increased citation of an author's work. For more information on this approach, see the Public Knowledge Project, which has designed this system to improve the scholarly and public quality of research.  
Archiving  
This journal utilizes the LOCKSS system to create a distributed archiving system among participating libraries and permits those libraries to create permanent archives of the journal for purposes of preservation and restoration.  
Publication Frequency  
There will be five issues of IJEDICT per year, in a continuous publication cycle. Articles will be published immediately in the current issue of IJEDICT on completion of the review/editing process.  
Publication Classification Details  
Key title: International journal of education and development using information and communication technology  
Abbreviated key title: Int. j. educ. dev. using inf. commun. technol.  
ISSN: 1814-0556
About the journal

The International Journal of Education and Development using Information and Communication Technology (IJEDICT) is an e-journal that provides free and open access to all of its content. It aims to strengthen links between research and practice in ICT in education and development in hitherto less developed parts of the world, e.g., developing countries (especially small states), and rural and remote regions of developed countries. The emphasis is on providing a space for researchers, practitioners and theoreticians to jointly explore ideas using an eclectic mix of research methods and disciplines. It brings together research, action research and case studies in order to assist in the transfer of best practice, the development of policy and the creation of theory. Thus, IJEDICT is of interest to a wide-ranging audience of researchers, policy-makers, practitioners, government officers and other professionals involved in education for development in communities throughout the world.

Coverage

IJEDICT has a major emphasis on the use of ICT in education and development in hitherto less developed parts of the world. The journal includes descriptive case studies about education projects in developing countries and in rural and remote regions of developed countries, as well research articles evaluating such projects, developing policy or creating theory. Topics covered include, but are not limited to, the following areas: Distance learning, e-learning, flexible learning and delivery, blended learning, open learning, e-literacy, e-portfolios, MOOCS.

Notification of new articles

Sign up to receive regular notification of new IJEDICT issues and articles at:
http://ijedict.dec.uwi.edu/notification.php

Call for Papers/Articles

IJEDICT comprises the following sections: "research articles" (academic, peer-reviewed articles); "studies from the field" (edited but not peer reviewed case studies); "research in progress"; "literature reviews"; "project sheets" (brief descriptions of relevant projects); "notes from the field" (working papers, and other commentaries on relevant topics); "book/media review" (software and other media reviews).

The Editors welcome submissions at: http://ijedict.dec.uwi.edu/submissions.php

Section Policies

Editorial
This section contains the editorial written by the editors for the specific issue.

Refereed Articles
This section contains articles that have been reviewed by at least two academic peers in a process that ensures that authors and reviewers remain unknown to one another. To be included in this section, articles must be based on research and scholarship, and contribute "new" and significant knowledge to the field of ICT for education and/or development. Reviewers for research articles are selected from the Editorial Board, the Review Board and the Peer Review Panel.

From the Field
This section includes peer-commented and editorially reviewed case studies (2000-5000 words) of the use of ICT in education and/or development.
Invited Articles
As the name suggests, "Invited Articles" are ones specially requested by the Editors. Generally, they are editorially reviewed.

Research in Progress
This section includes peer-commented and editorially reviewed articles describing research in progress.

Literature Reviews
This section includes peer-commented and editorially reviewed articles that review the literature of the use of ICT in education and/or development.

Project Sheets
This section includes brief descriptions (500-1000 words) of education and development projects that utilise ICT.

Notes from the Field
This section contains short comments or notes that are useful for practitioners working in the field of ICT in education and/or development.

Book/Media Reviews
This section contains editorially reviewed reviews of books that are relevant to the use of ICT in education and/or development.

Submission of Articles
Authors can upload papers, as well as data sets, research instruments, and source documents through the journal's Submissions section. Papers, figures, and appendices can be submitted in a variety of file formats, including Microsoft Word and RTF (Rich Text Format).

Registration and login are required to submit items online and to check their status.

Author Guidelines

General Information
- Submissions are invited for all sections of this journal. Refereed articles should be between 3,500 and 6000 words in length. Project descriptions for the "Project Sheets" section should be between 500-1000 words in length. Submissions for other sections of the journal can be any length.
- Submissions can be in Microsoft Word, Rich Text Format (RTF), or equivalent Open Source document file format.
- Please use Arial 12-point font for the Title, which should be in bold "title" (upper and lower) case.
- Use Arial 10-point font for the remainder of your article.
- First level headings should be in bold uppercase.
- Second level headings should be in bold "title" (upper and lower) case.
- No footnotes please - instead use endnotes.
- Photographs, maps, diagrams and other audio-visual aids are encouraged. Please include these in the text where and as they should appear. Please provide images in gif or jpeg formats.
- Note that all submissions are checked for originality using Turnitin before being sent out for review.

Abstracts
Please provide an abstract of approximately 100 words. The abstract should be included with the rest of your article in the submission file, but it should also be copied into the appropriate text box during the on-line submission process.
Biography
Please supply a short (100 word) biography for each author. This should include the name, rank, institution, institutional address, and email address. Do not place the biography in your submission file but copy it into the appropriate text box during the on-line submission process.

Style
Submitted manuscripts must be written in the Harvard editorial style:
  o References should relate only to material cited within the manuscript and be listed in alphabetical order, including the author's name, complete title of the cited work, title of the source, volume, issue, year of publication, and pages cited. See the following examples:
  o Citations in the text should include the author's name and year of publication where you use the source in the text, as in the following examples:
    In this way, information technology can be seen to effect and influence changes in organisational structure (Orlikowski & Robey 1991).
    Edwards (1995, p.250) views the globalising of distance education as "invested with the uniform cultural messages of modernity".
    Globalisation, especially in relation to open and distance education, will reduce the tolerance of difference and so "how can local issues and contexts be addressed?" (Evans 1995, p.314).
  o Further information about the Harvard editorial style can be found at:
    http://www.lmu.ac.uk/lskills/open/sfl/content/harvard/index.html

Copyright Notice
Copyright for articles published in this journal is retained by the authors, with first publication rights granted to the journal. By virtue of their appearance in this open access journal, articles are free to use, with proper attribution, in educational and other non-commercial settings.

Privacy Statement
The names and email addresses entered in this journal site will be used exclusively for the stated purposes of this journal and will not be made available for any other purpose or to any other party.

# Table of Contents

**editorial**

Editorial: ICT in education: Innovation, implementation, perceptions and experiences  
*Stewart Marshall and Wal Taylor*  
2

**refereed articles**

Blended learning innovations: Leadership and change in one Australian institution  
*Negin Mirriahi, Dennis Alonzo, Simon McIntyre, Giedre Kligyte and Bob Fox*  
4

Evaluating the implementation of international computing curricular in African universities: A design-reality gap approach  
*Salihu I Dasuki, Peter Ogedebe, Rislana A Kanya, Hauwa A Ndume and Julius Makinde*  
17

Success factors for ICT implementation in Saudi secondary schools: From the perspective of ICT directors, head teachers, teachers and students  
*Sultan Saad Albugami and Vian Ahmed*  
36

Community outreach projects as a sustainable way of introducing information technology in developing countries  
*Irina I.Y. Zlotnikova and Theo Th.P. van der Weide*  
55

Students’ perception of blended learning environment: A case study of the University of Education, Winneba, Kumasi-Campus, Ghana  
*Samuel Adu Gyamfi and Patrick Ohemeng Gyaase*  
80

MLCMS actual use, perceived use, and experiences of use  
*Edgar Napoleon Asiimwe and Åke Grönlund*  
101

**from the field**

Information and communication technologies to raise quality of teaching and learning in higher education institutions  
*Chris Prince Udochukwu Njoku*  
122

**literature reviews**

Constructing categories for educational technology professionals  
*David James Woo*  
148

**book/media reviews**

EmergingEdTech’s 2013 Free Education Technology Resources eBook (Book Review)  
*Reynald Maravilla Cacho*
